

# Introducing our Newest Herdsire

## L BAR MOMENTUM

Blending the great L Bar 5502 line with Lasater and Rancho Tres Hijos genetics, **L Bar Momentum** provides the perfect complementary-cross for En Fuego genetics. He really rang the bell in our 2019 Performance Test and Sale: He was the second highest-selling bull overall, gained an amazing five pounds per day on the feed test and had one of the highest carcass scans in the offering. Momentum's EPDs are incredibly balanced, with eight top-15% breed rankings. He is very long and thick, moderate-sized and cherry red with exceptional conformation and a terrific disposition.

# And One of the All-Time Greats

## L BAR EN FUEGO

**L Bar En Fuego** is one of the most influential herdsires to come out of the Isa Program. He has sired the #1 or #2 bull in each of the last five sales since his progeny came online, which is unprecedented. This includes two of our semen sires, L Bar Habanero and L Bar 4519. En Fuego is polled and has the ideal conformation, with a U 1/1 classification. A breed trait leader for both SC and IMF, En Fuego produces wonderful females, including two daughters selected as donors. He is straight-topped, perfectly muscled and clean underneath—he's got the look!
