FOUNDATION FACTS

FBA MID-YEAR BOARD MEETING

Dear FBA members,

It was recently that I attended my first FBA mid-year board meeting in Denver. I would like to relate some of my thoughts to you.

The Foundation Beefmaster Association truly is a grassroots organization. I am impressed by the diversity of leadership, which reflects our diversity of membership. Whether you run a large herd or a small "hobby" herd, your concerns are represented.

Our new price structure for certificates of breeding is very successful. Applications have tripled and our cattle inventory is up 3,000 head!

Financially, FBA is in very good shape. Reserves are now in a higher yield, long-term investment portfolio.

We are introducing a new environmental advertising copy entitled, "Cattle - Nature's Partner". This, I believe,

demonstrates the difference between the Beefmaster associations. Lasater's philosophy states that "through the use of systematic culling, nature's laws are fundamentally applied. This results in a far superior breed of cattle that is better adapted to the environment."

We wrapped up two days of meetings with a trip out to the Lasater Ranch. There we viewed the foundation cattle and enjoyed a delicious BBQ cooked to perfection by Duke Phillips. The warmth and hospitality of the Lasater family always make you feel right at home.

In this day and age, we face many tough issues in the cattle business. It is my sincere belief that, with our FBA leadership and membership, and with our FBA cattle, we will all enjoy a prosperous venture into the next century.

Yours truly,
Carson E. Scheller
Director

SENATE URGED TO SUPPORT BEEF PROGRAMS

NCA has submitted testimony to the Senate Agriculture Appropriations Committee in support of funding for several beef-related programs. NCA opposes imposition of user fees for federal meat inspection, contending that programs mandated by law on behalf of the public should be publicly funded. NCA also testified in support of continued federal funding for three special-grant research programs: identification of major genes affecting carcass quality; development of an instrument grading machine to assess carcass characteristics; and development of carcass trait information for live, yearling, breeding bulls. The beef industry already has provided checkoff funding for the programs. NCA also expressed support for funding for the USDA Market Promotion Program; the Soil Conservation Service Grazing Lands Conservation Initiative and the Animal and Plant Health Inspection Services brucellosis and tuberculosis eradication programs,

including tuberculosis eradication in deer and elk. NCA also supports Secretary Espy's initiative to reform the meat-inspection system, based on scientific analysis.

McDONALDS EXPANDS INTO GLOBAL MARKETS

The world's largest beef customer, McDonald's, is accelerating its expansion in U.S. and international markets. At the company's recent shareholder meeting the company announced that it will build 700 to 900 restaurants annually for the next several years. The company now has 13,000 stores in 66 countries. A total of 4,134 international operations generate more than 8.6 billion in annual sales. By comparison McDonald's U.S. sales are \$13.2 billion. In 1993, McDonald's will open new stores in Iceland, Israel, Oman and Saudi Arabia. Domestically, the company plans to experiment with new store locations in such diverse locations as Wal-Mart stores and a Chicago-area supermarket.

SATELLITE NEWS

CTBB NEWSLETTER

Caro and I are just back from the spring Directors' meeting in Denver May 14 - 15. Good reports were given by each of the committees. We are in good financial condition, we enjoyed a modest increase in membership, and a record 45,967 head of cattle were reported on inventory. Glad as we are to have this growth, a few of our old members haven't renewed their FBA membership. If you have a chance to visit with any of the following, find out their story, and let them know that FBA and CTBB need their interest and influence: Tim Caldwell; Rodney Dunham; Mark Hodges; Diego Gutierrez; John Kubena; Patsy Stoneham; John Voight.

The FBA staff is busy with plans for the November 4-6 convention in Colorado Springs, which will include a tour of the Lasater Ranch. This ranch tour is always a highlight of the spring meeting for me - I wish every Beefmaster breeder could see the Foundation herd. Information on the convention will be forthcoming, but now is a good time to begin thinking and planning for it.

Since the last newsletter, the bulls on the test have continued to make good gains. The April weighing showed an average daily gain of 3.47, and at the May weighing, the ADG was 2.27, which is excellent considering that the winter forages are maturing and the Coastal is just kicking in.

The Bull Committee plans to include 10-20 outstanding heifers in the October sale. You don't have to have a bull on test in order to consign a heifer, but these animals must be top quality to maintain the high standards of our sale. This can be a major attraction if we have the right kind of heifers consigned. They must have been born December 15 - March 15, 1992, just as the bulls, and must be bred to calve during the same period in 1994.

There are still a few bulls being consigned to the test that have disposition problems. Considering the high heritability of this trait, the negative influence they have on the rest of the bulls and the extra hassle of handling, the Bull Committee will be more strict in screening next year. We all need to stay on top of this in selection and particularly in the handling of our herds.

Gary Frenzel, Ron Ranly, Don Fields, Troy Wimberly and the Boswells attended the Panhandle Satellite sale in Amarillo March 27 and saw some good cattle sold. The Panhandle members were very pleased with the sale.

Forty-two bulls sold for an average of \$1,673, and 30 females for an average of \$1,182. Terry Frenzel and Ron Ranly traveled to Colorado to attend Dale Lasater's sale, which averaged \$2,200 for 68 yearling and long yearling bulls. These figures say a lot about the popularity of Foundation Beefmasters.

Clifton and Cathy Marek, James and Bessie Garner and sons, Gary Frenzel and the Boswells were in San Antonio April 19-20 for the 1993 Southwestern Grazing Conference. There are so many new ideas and techniques out there, one of your most important budget items might be for educational seminars and programs. We can't afford to be like the fellow who said, "I already know more than I'm going to do!"

Speaking of educational seminars, Dale Lasater is planning summer courses at the ranch on Holistic Ranch Management, leadership development and stockmanship, each under the direction of outstanding specialists. Contact Dale for dates and details.

You are encouraged to make plans to attend the June 5 Field Day/Seminar at the Beef "On" Forage test facility at Clifton Marek's ranch, Lexington. There will be interesting speakers, a good barbecue meal, several commercial exhibitors and good bulls to view. Invite potential members and/or bull buyers to come along and see the bulls and enjoy the fellowship.

You will note in your new CTBB Yearbook that we are starting 1993 with 72 members. Last year, we started with 57 members and ended the year with 71. Hopefully, we can make similar growth during 1993. Several new breeders are listed, and we hope for a chance to get better acquainted - perhaps at the field date.

By the way, if your name is not in the book, it means you forgot to send in your dues. It's never to late - you will want to be included in the CTBB ad in the '94 FBA Yearbook, so get that check in the mail! Incidentally, the FBA yearbook was discussed at the Directors' meeting and it was agreed that the '94 book would be expanded to include more color pages and new articles.

See you at the Field Day

Bob Boswell
Secretary-Treasurer
CTBB

USDA MEAT- INSPECTION REFORMS PLANNED

USDA has announced five initiatives to proceed with its planned reforms of the meat inspection program. They are: 1) Publication of regulations that will mandate a process of industry installation of a Hazard Analysis and Critical Control Point (HACCP) system. 2) the continuation of special in-plant reviews of an expanded basis. 3) Publication of a statement in the Federal Register in 60 days that specifies the criteria needed for rapid microbiological in-plant tests. 4) Appointment of a public health advisor in the Food Safety and Inspection Service. 5) Preparation of an outline for Secretary of Agriculture Mike Espy regarding needed changes in the meat inspection laws. The outline is to be finished within 30 days of the final meat inspection regional hearing scheduled for June 18 in Philadelphia, Pa. According to Espy, this initiative should include expanding USDA authority to require identification of animals to allow traceback from the meat processing plant to the farm. NCA supports these initiatives but pointed out that the current traceback system already can adequately link an animal with the farm of origin. NCA will provide additional input.

STUDY SAYS EXPORTS WORTH \$70 PER HEAD

Record exports of beef and veal in 1992 added more value to cattle prices last year than at any time in history, according to a study released last week at the U.S. Meat Export Federations (MEF) mid-year meeting in Washington, D.C. The study, conducted by CF Resources Inc., indicates that export sales of U.S. beef in 1992 added nearly \$70 per head to the value of fed cattle sold in the United States. The impact on calf prices was \$62 per head and the benefit to feeder cattle was \$66 per head, according to the report. U.S. beef and veal exports (including variety meats) hit a record \$2.5 billion in 1992, up 300 percent over the past 10 years. That accounted for 9.6 percent of the wholesale value of total U.S. beef production, according to the study. In production terms, the study found the U.S. beef exports in 1992 were equivalent to 1.9 Million head of slaughter cattle. MEF representatives said that China is a significant emerging market for U.S. beef exports. The U.S. could export \$25 million to \$35 million of beef and variety meats to China by the year 2000, if funding through USDA's Market Promotion Program (MPP) is adequate, MEF President and CEO Phil Seng predicts. Last year MEF received \$10.3 million in MPP funds for market development. NCA has been working with key congressional committees to keep MPP funding at the proposed \$147.7 million level in 1993.
